Integrating Disconnected Data Sources

Disconnected Data Sources

Complicates research management, administration and networking and collaboration

- Multiple IDs
- Disparate information
- Disconnected data
- Non-homogeneous data
- Available at high cost in FTE

- Unique IDs
- Structured information
- Interconnected data
- Homogeneous data
- Available at low cost in FTE

Pure Integration

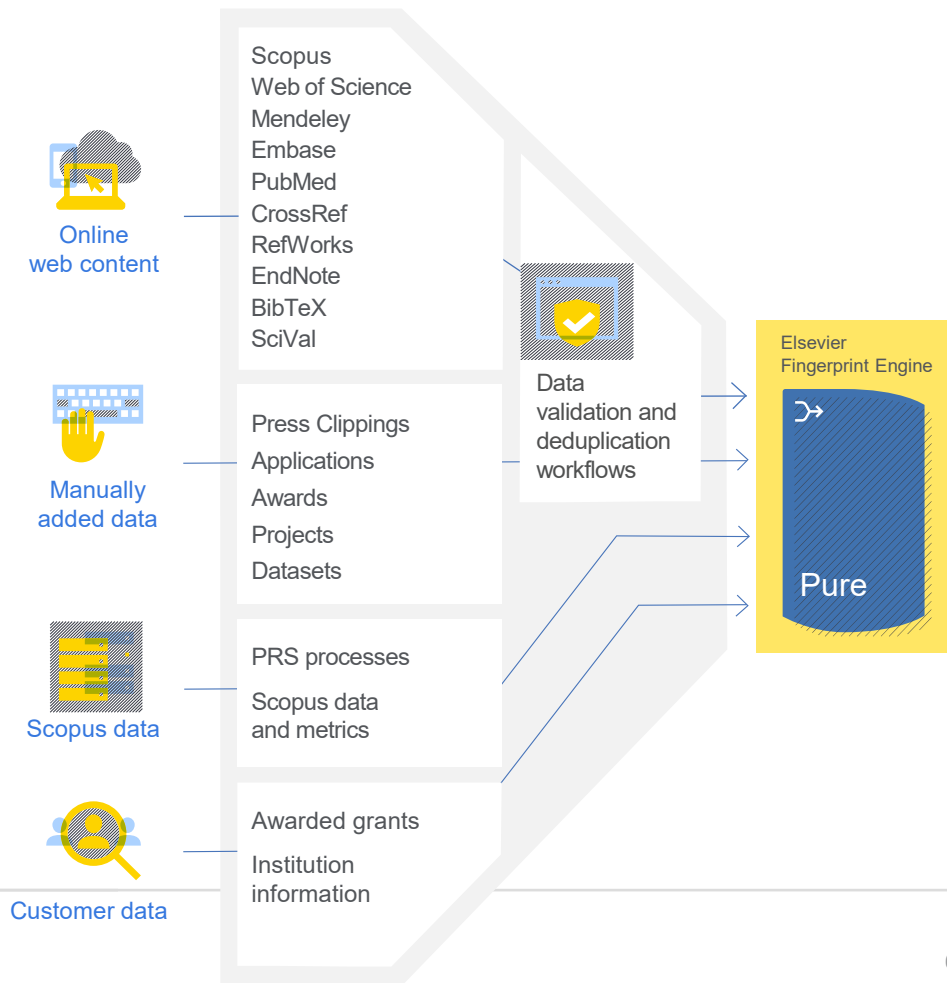

Simplifies research management, administration and researcher networking and collaboration

Pure - Unlock your full research potential

Importing Data from Multiple Channels

Pure is designed to capture data from a **wide selection of internal and external sources**.

Benefitting from Our Unmatched Expertise

- Pure is the leading globally available commercial RIM solution provider
- 300+ RIM systems implemented to date, and is used in 47 countries
- More than 500,000 researcher and faculty member profiles have been created in Pure
- 20 years of development and improvements to keep up with market requirements/demands (SDGs, Open Access, Covid19), compliance, etc.
- Superior customer service
- Dynamic communities: Pure conference, User groups, Pure Academy & Slack group, Webinar series

Pure Modules

➤ **Como funciona a integração entre os sistemas Pure e CIÊNCIAVITAE**

➤ Integração inicial (única)

Workflow de integração inicial:

1. O Administrador de sistema Pure ativa e configura a ligação ao CIÊNCIAVITAE

CIÊNCIAVITAE configuration

Enable CIÊNCIAVITAE export *

On

Enable CIÊNCIAVITAE export. This schedules a job which runs periodically and exports data to the CIÊNCIAVITAE API. Also enables the option to export a single person's data.

Sandbox mode *

On

Toggle sandbox mode to interact with CIÊNCIAVITAE QA environment. Use this mode when testing the CIÊNCIAVITAE export.

Workflow de integração inicial:

2. O investigador necessita ter um CIÊNCIA ID
3. O CIÊNCIA ID é inserido no perfil Pure do investigador, que requer a sua autorização para que o conteúdo seja exportado do Pure para o seu perfil CIÊNCIAVITAE

The screenshot displays a web interface for adding a CIÊNCIA ID. A modal window titled "Add existing CIÊNCIA ID" is open, showing a green checkmark and the message "CIÊNCIA ID is valid." Below this, the ID "8612-EA8D-64AC" is entered. A second modal window, "Authorize Pure to write to CIÊNCIAVITAE", is overlaid on top. It contains the following text: "Click the link below to open the CIÊNCIAVITAE site where you need to authorise the export of content from Pure to your CIÊNCIAVITAE record. Upon setup, Pure will export the content immediately, and then subsequently automatically update it at a frequency determined by your Pure administrator. CIÊNCIAVITAE authorization page". At the bottom of this modal are "Cancel" and "Verify access" buttons. The "Authorize export to CIÊNCIAVITAE" link in the modal is circled in red.

Workflow de integração inicial:

4. O investigador faz o login no CIÊNCIAVITAE para confirmar essa autorização (podendo depois verificar a ativação no Pure)

Sandbox URL

Allow confidential data *

Off

Allow confidential data to be submitted to the API.

Limit to validated content *

Off

Only export content that is in validated/approved workflow step. If content family does not have workflow enabled, all content is exported.

Forced mode *

Off

Run the job in forced mode. This will export all content when the export job is run next time. A normal run checks whether changes to the content was made since the last export and ignores the content if that is the case.

Debug mode *

On

Run the job in debug mode, enables additional logging.

Days between runs *

How many days should be between when the job runs

CIÊNCIAVITAE mapping file

XML Mapping file containing mapping between Pure and CIÊNCIAVITAE codes. A default mapping file is available, it can be downloaded for editing and re-uploaded here. The configuration must be saved after uploading a new file.

Benefícios adicionais com a integração entre o Pure e o CIÊNCIAVITAE

- **Re-utilização da informação** – investigadores só inserem a informação uma vez, que é depois reutilizada para diferentes fins e partilhada com CIÊNCIAVITAE – **Redução de esforço e tempo!**
- **Atualização e manutenção automáticas do perfil do investigador** – **Simplificação** da criação do curriculum vitae (CV), construindo bibliografias com a informação e dados do Pure

Obrigada!
