Sistema de pesquisa e de descoberta de recursos bibliográficos

O PRIMO é um sistema de pesquisa e de descoberta de recursos bibliográficos que serve para melhorar a experiência de pesquisa e acesso a recursos. Permite realizar pesquisas bibliográficas no catálogo das 4 Bibliotecas do Politécnico de Leiria e possibilita o acesso a uma ampla variedade de materiais, incluindo livros, artigos, e recursos digitais num único ponto de acesso.

The screenshot displays the U.Porto Primo search interface. At the top, there is a navigation bar with the U.Porto logo, 'BIBLIOTECAS U.PORTO', and tabs for 'PESQUISAR', 'ÍNDICES', and a menu icon. To the right of these tabs are icons for a QR code, a bookmark, and links for 'Login' and 'Menu'. Below the navigation bar is a large search bar with the placeholder text 'Pesquisar aqui'. To the right of the search bar is a microphone icon and a magnifying glass icon. Below the search bar is a row of filters: 'Todos', 'Livros', 'Artigos', 'Periódicos', and 'Atas de congressos'. Below the filters is a section titled 'Catálogos da U.Porto' which contains a list of catalogs organized in two columns.

Resultados da Pesquisa

The screenshot shows the U.PORTO digital library search results page. The search query is "Digital Equity and Access". The results are displayed in a list format. The first result is a book titled "Diversity in Computer Science: Design Artefacts for Equity and Inclusion" by Björn, Pernille; Menendez-Blanco, Maria; Borsotti, Valeria, published in 2023. It is an open access book, and a PDF is available online. The second result is a book titled "Access and Benefit-sharing in Global Aquaculture: Genetic Resources, Digital Sequence Information and Traditional Knowledge" by Humphries, Fran; Lawson, Charles; Benzie, John A.H; Morrison, Clare, published in 2024. It is also an open access title available under a CC BY-NC-ND 4.0 License, and a PDF is available online. The left sidebar shows active filters: "Acesso aberto", "Livros", "Inglês", and "Anos: 2023-2025". The top navigation bar includes links for "PESQUISAR", "ÍNDICES", "PERCORRER PERIÓDICOS", "SUGESTÃO DE COMPRA", "LOCALIZAR CITAÇÕES", "JORNAIS", and a "Login" button.

**Overview of sources**

The future of libraries is characterized by significant transformations influenced by digital advancements and changing societal needs. Libraries are increasingly viewed as community hubs and knowledge facilitators, moving away from being mere content warehouses to becoming enablers of content creation. This shift is expected to result in libraries having fewer physical books while expanding their available space for various activities, catering to new visitor demographics such as digital natives and entrepreneurial learners . ²

The role of public libraries is also evolving in response to the digital information environment. Social networking and the digitization of resources have prompted discussions about the library's identity and societal role. Some professionals express optimism about the adaptability of libraries, while others raise concerns about their relevance in the coming decades. This discourse emphasizes the need for libraries to reassess their objectives and redefine their service identity, particularly as they navigate the challenges posed by digital technologies . ³

Data on academic library usage indicates that, despite a decline in the number of books borrowed, there has been an increase in physical visits to these libraries. This trend suggests that academic libraries continue to play a vital role in the educational landscape, even as the nature of their services evolves in the digital age . ⁴

Public libraries have also adapted over the past seventy years, reflecting diverse patron needs and the impact of architectural design on service
