Authors are required to submit a one-page abstract in English.

a) Fill in the text field (maximum of 2500 characters, including spaces). Figures are not included in the book of abstracts, so do not reference figures within the text.

b) Optionally, authors may upload a supplementary abstract as a PDF file. This option allows the inclusion of figures for the reviewing process; however, the PDF submission will not be included in the book of abstracts. The PDF file should contain the same text as described in (a), formatted in Arial, size 11, and may include figures and references to those figures, but must not exceed one page.

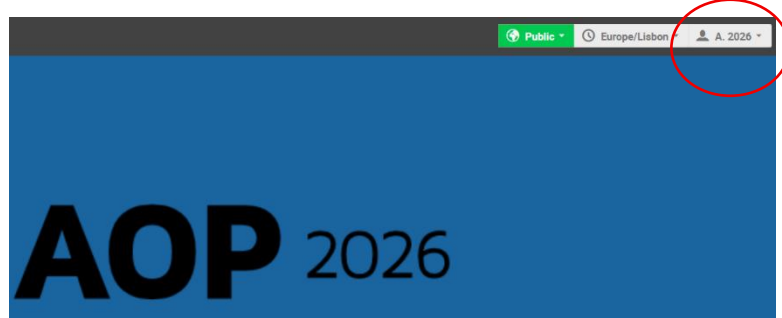

c) Whenever possible, use the search tool to find authors who have already registered on the platform. Alternatively, you may add authors manually. Author affiliation and email for the conference abstract book will be retrieved from the profile information on the platform, so please ensure that this data is up to date.
