O futuro da comunicação científica

Lennart Stoy

(European University Association)

Lennart Stoy is Project Manager in the Research & Innovation Unit of the European University Association, working on EU research policy including open science, EOSC, scholarly publishing, research data and research infrastructures.

He's a work package leader in the "FAIRsFAIR - Fostering FAIR data practices in Europe" project, focussing on research data management skills within university curricula. Between 2014 and 2018, he helped develop the EUA Energy & Environment Platform.

Prior to joining EUA, Lennart gained experience in the Global Knowledge Sharing and Learning unit of GIZ and at the Sino-German Cultural and Economic Association in Taipei. He holds a master's degree in Political Science from Leiden University. Before that he studied East Asian Studies at Ruhr University Bochum and Tongji University, Shanghai.

O futuro da comunicação científica

Colleen Campbell

(Max Planck Digital Library)

COLLEEN CAMPBELL leads international engagement at the Max Planck Digital Library and coordinates the Open Access 2020 Initiative, an international effort of more than 150 organizations, representing over 4,000 research institutions from five continents, that aims to transition today's scholarly journals from the current *subscription* system to new *open access* publishing models. Previously European Director for Strategic Partnerships at ITHAKA, she has over 20 years' experience across all areas of the academic information sector. A frequent speaker at international conferences, she sits on the board of trustees of the industry association UKSG, serves on the LIBER Open Access Working Group and participates in a number of other community initiatives related to scholarly communication.
